Dialogue tables

Screening & Access to Care

- What role for rapid tests/DBS, pharmacies, peers?
- What solutions for Fedasil, homeless people, undocumented migrants?
- What cooperation between NGOs / primary care?
- Sustainability in HCV Caremanagement – need for support and coaching (lighthouses)
- Stigma: there are still refusals for treating pwud... but there are no excuses not to treat
- Outreach treatment – test and treat , lower the threshold for treatment
- How feasible is a general database

Prison

- How to generalise opt-out screening?
- What organisation to treat all prisoners?
- How to ensure continuity upon release? Linkage to care and/or follow up
- Is it feasible to have one federal approach?

Future planning

What is – for you – the aim of Benhsu ?
